

The first designs were created in Figma, but it was very time consuming.  
Here you can see the indented landing page.

Here is the login and sign in pages.

Here is a basic drawing of how we wanted the filter/search and product page to look like

Basic drawing of how the admin page look like, here the administrator should be able to get, add, edit and remove data.

Basic drawing of how the user page look like, with a list of saved trips.
